SUMMARY

I am a Full Stack Developer with over 2 years of experience focusing on React-based applications. My expertise includes optimizing UI performance, building dynamic interfaces, and ensuring code quality. I have a strong understanding of modern web technologies and best practices. I am passionate about creating efficient applications that enhance user experiences, and I continuously strive to improve my skills and knowledge in the field.

EXPERIENCE

Software Development Engineer (SDE)-1

Innostax Software Labs

08/2023 - Present

Gurgaon, India

A software development company focused on innovative solutions.

- Crafted cross-platform apps leveraging performant UI components and state management features, including efficient navigation libraries and asynchronous data fetching.
- Built multi-select image picker and dynamic link navigation, increasing user retention by 25% as per Amplitude data.
- Developed Drag & Drop and attachments features, boosting user engagement.
- Eliminated security vulnerabilities and improved user convenience through a comprehensive authentication system involving SSO and JWT, boosting user satisfaction and leading to a 15% reduction in support tickets related to login issues.
- Developed REST APIs, successfully integrating with front-end systems and enabling seamless data flow across the company's app and website.

Associate Software Developer

Innostax Software Labs

02/2023 - 08/2023

Location

Part of the development team working on backend and frontend technologies.

- Utilized JavaScript and TypeScript expertise for seamless DOM manipulation, enhancing user experience by dynamically updating UI elements based on real-time server-side data.
- Leveraged React.js, Node.js, Redux, JavaScript, TypeScript, Bootstrap, Tailwind, GraphQL, and Express to tackle real-world challenges and drive project success

Frontend developer Intern

Dichroic Labs

09/2022 - 12/2022

Indore, Madhya Pradesh

A tech startup specializing in web development.

- Assisted in the development of new web pages, monitored and resolved technical support requests.
- Worked closely with the product team on the scope of future projects.
- Carried out continuous identification, measurement, and improvement of processes.

EDUCATION

Bachelor of Computer Application

GRD group of colleges

08/2019 - 07/2022

Ropar

12th ICSE

St. Paul's College

05/2018 - 05/2019

Moradabad

10th ICSE

St. Paul's College

05/2016 - 05/2017

Moradabad

SKILLS

React JS

Next JS

Node JS

Express JS

MongoDB

MySQL

Tailwind CSS

Bootstrap

PROJECTS

Energy Hire

02/2024 - Present India

Energy Hire platform focused on job management and user satisfaction.

- Implemented an admin job approval workflow, ensuring that job postings are reviewed and approved efficiently, maintaining the quality and relevance of job listings on the platform.
- Integrated an impersonation feature, allowing administrators to troubleshoot issues and provide better support.
- Enhanced job management system by implementing features for tracking job status, including draft, pending, and streamlining the hiring process

Tava Trip

07/2023 - 02/2024 India

Tava Trip flight booking application.

- Developed a flight booking application with a responsive UI for multiple screens and implemented backend APIs to handle booking, flight details, and user management.
- Implemented JWT authentication for API security.

Tava Cloud

02/2023 - 07/2023 India

Tava Cloud backend development project.

- Developed a dynamic backend with drag-and-drop connectors and dynamic route-based authentication.
- Enabled functionality to choose and switch between different databases seamlessly based on application needs.
- Implemented dynamic authentication for API routes, enhancing security.

STRENGTHS

Adaptability

Quick to adapt across diverse technologies and project requirements.

Dedicated Learner

Continuously expanding knowledge and staying updated. Ensuring code quality and accuracy.
